

Anthony ABRAMO

AGILE CONSULTANT - PROGRAM MANAGER

With a solid background in software development, I bring versatile experience from both high-performing and challenging Agile environments as an Agile Coach to deliver you value. Adaptable to your needs, I align my coaching with your strategy to drive continuous improvement, enhance team performance, and deliver measurable results in Agile transformation.

Key Experiences

CARREFOUR France | Paris | Consultant
2023 - 2024 (6 months)

Coach Agile

- Implementation of Scrum and scaled agility (SAFe) in the Digital Factory, overseeing 6 Agile Release Trains, with a shared role as Release Train Engineer (RTE).
- Active participation and leadership within the agile community (SMs, RTEs, Coaches).
- Tailored coaching for newcomers on the roles of Product Owner and Product Manager.
- Contribution to the management and optimization of Jira configuration as an Administrator. All within an English-speaking environment.

RAS Intérim & ZOL | Lyon (2 clients) | Consultant
2022 - 2023 (6 months)

Coach Agile

- Implemented agility within the organizations. Includes defining needs, adopting Agile methodologies (Scrum, and Kanban), and providing tailored training for newcomers.
- Developed skills and defined Agile roles, particularly for the Product Owner role.
- Customized an Atlassian ecosystem (Jira, Confluence), establishing project tracking and reporting to meet specific requirements.
- Facilitated Agile ceremonies to ensure team efficiency.

Vivlio | Lyon
2021 - 2022 (1 year)

Scrum Master

- Implemented agility within the company, including defining needs, adopting Agile methodologies (Scrum, Kanban), and providing tailored training for newcomers.
- Developed skills and defined Agile roles, with a focus on the Product Owner role.
- Customized an Atlassian ecosystem (Jira, Confluence), establishing project tracking and reporting tailored for the products & teams.
- Facilitated Agile ceremonies and managed three teams, including an offshore team in an English-speaking professional environment.

THALES LAS France | Paris
2019-2021 (3 years)

Scrum Master / Software Engineer

- Implemented agility within the team, including defining needs, adopting the Scrum methodology and providing tailored training for newcomers.
- Developed software and simulation tools using Ada, Java, Node, ReactJS, Storybook, and Git in an Agile SAFe environment.
- Actively collaborated in architecture sessions and algorithm presentations, contributing to knowledge sharing with architects and algorithm engineers.
- Committed to quality by implementing and maintaining various tests in close collaboration with the system team.
- Contributed to improving continuous integration processes using Jenkins and SonarQube.
